## (54) TERMINAL OPERATION ACTING SYSTEM, OPERATION ACTING DEVICE, OPERATION CONTROLLED TERMINAL, AND PROGRAM

### (57)Abstract:

**PROBLEM TO BE SOLVED:** To provide a technology that can easily set a desired function to an electronic device even without knowing a troublesome operation method.

**SOLUTION:** The internet N interconnects a command server 30 and a terminal 42 in a user's home 40. The terminal 42 and a VTR 41 as the electronic device are interconnected in a cable C in the user's home 40. The command server 30 transmits a command group equivalent to an operation requested from the terminal 42 on behalf of the operation of the VTR 41 to the VTR 41 via the terminal 42. The VTR 41 executes a function according to the command group sent from the command server 30.
